Subject: Question for the public Q&A for April 7th 2020 council meeting

Good evening mayor and council.

I write to you on the afternoon before the "virtual" council meeting, and will be watching along safely at home.

I want to ask about why is this 2nd council meeting pack produced since the public forum regarding the development application for the whistler mountain ski club staff housing to NOT include the opposition letters made to council that have not been made public.

This seems to be the stealth way of submitting public comments, but without actually the public being able to see the submission an iirc is not the first time this has happened.

Why have these documents not been added as part of the public hearing package? and why is the package now been removed from the municipal website? see attached screenshots.

I have previously spoken to Councillor Forsyth about this shortly after the public forum as too why these documents are not published! He assured me it would be in this council meeting pack. So where are they?

[And yes I very very much understand the irony of submitting this question this way, and specifically at this time! That is the specific point I would like to make.]

or a dormitory and/or 1-3 employee-restricted dwelling units.
