Whistler, BC

Mayor and Council  
Resort Municipality of Whistler  
4325 Blackcomb Way  
Whistler, BC V8E 0X5

Dear Mayor and Council,

I am a long-time resident of our community, and I am writing to express my concern about the recent discussion at the May 5<sup>th</sup> council meeting and the pending decision regarding the development application RZ 1146 – 7104 Nancy Greene Drive.

While I understand there is a great need for resident housing in Whistler this must be, as the Whistler Official Community Plan (OCP) states “designed and managed to be sensitive to the surrounding environment”. The current proposed project has many shortcomings for it to meet this criteria.

I would like to bring the attention of the Council to the following 2 points of concern:

- Density of the proposed project; and
- Privacy issues with the current proposal

**Density:**

The current proposed density of the project at 7104 Nancy Greene Drive is way too high for such a small site. The site is only 2,816.6 square meters and the developer is proposing 38 units and a Floor Space Ratio of 0.95, by comparison this is:

- A smaller lot size over 1000 meters square than the neighbouring Fitzsimmons Walk WHA land (3,912 meters square) where there are only 36 units – see attached GIS Mapping.
- Triple the density of proposal RZ1144 – 2077 Garibaldi Way – with a current proposed Floor Space Ratio of only 0.32. Please remember you rejected the previous application of this site when the Floor Space Ratio was 0.40 for the reason it was too much density.

I would also like to remind council that this development site has been evaluated previously for residential housing rental in the workshop and subsequent report completed in 2004 and documented in ‘Comparative Evaluation of Potential Resident Housing Sites in Whistler’ – attached. This report identified this site would be appropriate for townhouse rental properties and a site maximum of 5 units. The current proposal is far exceeding this recommendation which was made by a host of personnel including municipal staff, WHA staff, Environmental professionals, Civil Engineers and Resort planners.

To build something that is such high density in a neighbourhood that consists of primarily low-density zoning and buildings is not ‘sensitive to the surrounding environment’ nor does it consider the “...locational characteristics...” of the

neighbourhood as per your guidelines documented in 'Guidelines for Evaluating Private Sector rezoning Proposals for Employee Housing' as attached.

**Privacy**

With such a dense development being proposed, the residents of Nancy Greene Drive are concerned about the significant reduction in privacy, especially those in Building A and H of Fitzsimmons Walk.

Persons on Nancy Greene Drive purchased and choose to live where they do with the understanding that on the 7104 Nancy Greene Drive site, there would be single family home or something comparable built as per the zoning. I believe that the council is not using their best judgement in considering a 4 story building (parkade that is above Fitzsimmons walk elevation, plus 3 stories of residential) and the impact on my quality of life and privacy as a neighbour to such a development. This proposal would mean that everyone in this building will be overlooking my property, I no longer have any privacy on my patio or balcony. The developer may be proposing a vegetian buffer, but it will take over 10 years for this to grow in. This is not acceptable.

Please take the time to really consider what is being proposed here. The high density proposal, while helping to fulfil the mayors task force of finding more bed units, will only create significant issues for the future. The council must reject this proposal and ask the developer to consider a smaller development on this site.

Sincerely,

Christopher Pearce

**Subject:** Proposed building on the corner of nesters next to fitsimmons walk.  
**Date:** Thursday, July 09, 2020 8:03:31 AM

---

To whom it may concern,

This letter is in regard to the proposed project at the current nesters employee parking lot.

I am a resident of Fitzsimmons walk so I have a unique perspective of the area and what I deem to be a project that is ill-suited for the proposed site.

I would like to proclaim my opposition to the proposed project for a few reasons.

-The proposed project will congest an already congested area with too many people crammed in such a small area with an already problematic intersection.

-The proposed project will not have adequate parking to house said residents and to think that everything that lives there will "walk and or bike to work" doesn't mean that they won't own vehicles as most people that live in whistler own a vehicle to either go adventuring in and or go shopping in Squamish and Vancouver due to high prices in whistler for goods.

-The proposed project also has inadequate storage facilities for residents of that proposed building so it will inevitably lead to bikes and clutter being littered all over the property. Increasing the risk of theft in the area in general.

-A safety risk with the fact that increasing housing and population along the valley trail will undoubtedly lead to an increase in accidents and traffic risks.

I respect the ideals of the project to add additional affordable housing to whistler. However the proposed plans for that current site will absolutely create problems for the area in my humble opinion.

Thank you for hearing my concerns.

Kind regards,

Steven Gumley
